## **1. INTRODUCTION**

### **1.1. THE COOK ISLANDS – THE HEART OF THE SOUTH PACIFIC**

The Cook Islands is a natural pearl necklace of 15 islands with a total population of approximately 20,000, scattered over some two million square kilometres of the Pacific Ocean.

The Cook Islands sits in the centre of the Polynesian Triangle, just west of Tahiti and French Polynesia.

### **1.2. RAROTONGA**

Discover the Cook Islands just as Captain Cook did...unspoilt, unhurried, unique.

In the heart of the Cook Islands natural pearl necklace is the perfect pearl, the passionate, the precious and the peaceful island of Rarotonga. Rarotonga is the capital island; with a centre of high mountains clothed in rainforest and encircled by white sandy beaches and shimmering turquoise lagoons. Rarotonga has so much to offer with its combination of natural beauty, mouth-watering local cuisine, exciting tropical cocktails, lively culture, captivating traditional songs and dances, and spectacular wildlife. The pace here is supremely relaxed, the mood carefree, the culture vibrant, and the people the friendliest you'll meet anywhere. Sample all Rarotonga has to offer and remember you are on holiday relax, unwind and enjoy!

The local people are Polynesian of the Maori race with close ethnic affinity to the indigenous people of Tahiti (Maohi), New Zealand (Maori), and Hawaii (Kamaina). Most Cook Islanders are bilingual - speaking both Cook Islands Maori and English. The people of the island of Pukapuka also speak their own distinctive language. The northern islands were most probably settled around 800AD by migrants from the west - Samoa and Tonga. The southern group inhabitants are largely descended from voyagers from the Society Islands and the Marquesas. The total population of the Cook Islands is approximately 20,000, of whom around 10,000 live on Rarotonga - the business and economic hub, with 100,000 visitors coming each year.

The people of the Cook Islands are naturally friendly, easy going and sociable. They are also resourceful and hold pride in their cultural identity. The islanders are a fairly conservative and generally religious people; the lifestyle is fairly relaxed, casual and informal. On the capital island of Rarotonga, the lifestyle is more varied and the standard of living is of a higher standard than in the smaller, more remote, outer islands.

There are two main roads on Rarotonga - you can circle the island on the Ara Tapu sealed road, through the villages and past the beaches or you can take the older inland road, Te Ara o Toi, which winds through fields of taro, pawpaw, bananas and village farm plots. Discover the Cook Islands just as Captain Cook did...unspoilt, unhurried, unique.

### 1.3. SANCTUARY RAROTONGA-ON THE BEACH

The Sanctuary Rarotonga on the beach is the Cook Islands' iconic adults only beach resort. Here, modern comforts blend with the charm of traditional Polynesia to add up to perfect relaxation on the sun-soaked beach. The Sanctuary Rarotonga is renowned for its warm and friendly staff with open hearts and smiles.

### 1.4. RESORT LOCATION

Set on Aroa Beach, Rarotonga's most beautiful white sandy beach on the shores of Aroa Lagoon (the Lagoon of Love), **Sanctuary Rarotonga-on the beach** is located on the island's sunshine southwest coast where guests can enjoy **all-day sun, stunning sunsets, all-tide safe swimming and excellent off-beach snorkelling** in the traditional marine sanctuary directly in front of the resort.

Set out amidst lush tropical gardens featuring hibiscus, banana and coconut palms. All of the Sanctuary's forty eight rooms are no higher than two storeys and are set on absolute beachfront, and feature an authentic Pacific aesthetic combined with the charm of Polynesian-style architecture.

## 2. GUEST INFORMATION

### 2.1. ACTIVITIES

The Sanctuary Rarotonga-on the beach is an adult's only boutique resort that mainly attracts romantic couples. The reception desk has available pool towels and can assist with making tour reservations at any one of our preferred tour operators around the island.

Sanctuary Rarotonga-on the beach guests have complimentary access to the extensive activities program at our sister resort (next door) at The Rarotongan Beach Resort & Spa where the **Activities Hut** is located poolside and is **open daily from 8.30am to 5:30pm**. There, the activities staff would be delighted to assist you with any equipment and information relating to the extensive resort activities programme including a wide range of exciting recreational, sporting and cultural activities, many focused on the lagoon itself which is a **marine sanctuary** (ra'ui), declared by traditional leaders on 1 March 2000 for the conservation of marine life within the zone. Consequently the **snorkelling in Aroa Lagoon, a fish breeding area, is exceptional with an amazing variety of fish.**

**The Rarotongan Beach Resort & Spa activities staff are happy to assist with providing beach towels and equipment for Resort activities such as snorkelling masks and flippers, reef shoes (essential if you're exploring the magnificent marine reserve), kayak paddles, tennis balls & racquets, tennis court bookings, volleyballs, petanque and a wide variety of board games, plus extensive local knowledge.** We kindly request that you do not take any resort equipment off the property, including beach towels and snorkelling gear. Please note all equipment borrowed is for a **maximum of 3**

**hours'** use and must be returned to the Activities Hut by 5.30pm on the same day. A fee of NZ\$20 per item will be charged to your room for later delivery, and cost price per item will be charged for the non-return of any Activities equipment. Other beach and lagoon activities include **beach volleyball, kayaking, outrigger canoeing, fish feeding, crab hunting & racing** and **night snorkelling**.

Additionally The Rarotongan Resort & Spa also has a fantastic games lounge which provides great facilities for entertaining all age groups. Features include a big screen TV, pool table, guest library, table tennis and giant size chess playing area. Due to the popularity of many activities, we recommend that you book in advance with the Activities Team, particularly the night snorkelling and Friday NiteLife Tour of Rarotonga's hottest bars and clubs. For further information **dial 8061 to reach activities and talk to one of our friendly activities staff members**.

## 2.2. AIR CONDITIONING

All the Resort guestrooms, suites, bungalow and villas offer **individual air conditioning** as well as a ceiling or wall fan for maximum guest comfort. To operate your air conditioning system, please follow these simple instructions:

1. To turn your air conditioning ON or OFF, **take the remote control out of its holder** on the wall, point it at the unit and press the top right button.
2. To ADJUST the TEMPERATURE, slide back the cover on your remote then press the BLACK arrow buttons down to lower the temperature, or up to increase the temperature. **To begin with we suggest you set it at about 22 degrees Celsius.** To maintain a comfortable temperature after the room has cooled down, please re-adjust it to about 25 degrees, and enjoy!
3. To ensure your air-conditioning unit works at its best please always **KEEP ALL WINDOWS & DOORS CLOSED** when operating the air conditioning. If windows and doors are left open with the air conditioning running the unit will most likely fail. **The first sign will be that the air conditioning unit begins to leak and if this continues it will eventually freeze up and fail.**
4. Do remember when leaving your room in the 100, 200, 300, 400 & 500 villages that the air conditioning unit might be situated just outside the door (i.e. if you're a tall person, please mind your head)
5. **PLEASE DO YOUR BIT!** To do your bit to prevent further global warming and reduce power consumption please remember to TURN OFF your air conditioning when you leave your room.
6. Please DO NOT REMOVE the remote control or any batteries from your room.

Rarotonga is a special slice of paradise, and we are sure you will want to do all that you can to keep it that way. Please bear in mind that on the island, power **is generated by imported, non-renewable diesel**, and costs about 80 cents per kilowatt-hour, as opposed to about 5 cents per kWh in your home. We encourage you to **please use the air conditioning only when necessary, and always turn it off** (and all lights and other electrical appliances) when you leave your room. Meitaki Maata (many thanks) for your assistance in keeping Rarotonga beautiful and Planet Earth healthy.

In order to conserve energy, your Room Attendant will turn off your air conditioning if your room is not occupied. **If you require assistance with your air conditioning controls** please contact Front Desk or our Duty Manager by pressing the icon (i.e. pictorial feature) on your phone or dial "8050"

The vast, pristine lagoon sparkles in a myriad of shades of turquoise which will take your breath away. **As the only resort set directly on the world's most beautiful lagoon, the Aitutaki Lagoon Resort & Spa** offers one of the world's most romantic resort destinations. The **resort's exclusive private island**, Motu Akitua, is reached by a small private ferry, just a 2 minute ferry ride from the main island of Aitutaki. Encircled by broad champagne sand beaches lapped by the turquoise

lagoon waters, and traced by swaying coconut palms, this is one of the South Seas' ultimate romantic retreats. Sister resort to the Cook Islands' iconic Rarotongan Beach Resort & Spa and Sanctuary Rarotonga-on the beach, Aitutaki Lagoon Resort & Spa is an intimate all-bungalow resort offering **the Cook Islands' only over water Bungalows** complete with direct access to the lagoon via a private landing, spellbinding lagoon views, two outdoor showers, his & hers vanities and a super king bed.

## **2.6. ANIMAL WELFARE**

Animal welfare is important to us here at the resort and thus we ask guests to please not feed any animals that you may occasionally find wandering on the resort. As these animals are most likely pets of local residents, and it causes great distress when their animals wander off to the resort and do not come home because they are being fed by guests at the resort!

The Cook Islands Society for the Prevention of Cruelty to Animals (CISPCA) is a non-profit organisation dedicated to animal welfare in the Cook Islands. Run by volunteers, it relies entirely on donations. CISPCA operates an animal shelter, and is located beside the children's playground across from the South Seas store in Avarua town. Anyone interested in learning more about CISPCA or its

projects in the Cook Islands, please stop by or PH 25 005 between 9am to 3pm, Monday to Friday. Visitors are welcome and assistance is most appreciated.

For any concerns regarding animal mistreatment or neglect, please contact CISPCA on PH 25 005.

The Esther Honey Foundation [www.estherhoney.org](http://www.estherhoney.org) (PH 22 336) is a veterinary clinic devoted to providing excellent animal welfare in the Cook Islands. Founded in 1995 by an American traveller, Cathy Sue Amunsen, the clinic is a non-profit organisation run entirely on donations. Manned by a group of volunteers mainly from North America and the United Kingdom, the clinic provides free veterinary care for all animals. They are based in Nikao by the Rarotonga Golf Club, or see them at the Punanga Nui Market on Saturdays. Opening hours for bookings are Monday to Friday, 9am to 5.00pm and Saturday 2pm to 5pm. All visitors, donations and offers of voluntary assistance are most welcome.

## **2.7. ART GALLERIES**

The Rarotongan Beach Resort & Spa has a gallery of inspirational local art located within the restaurant area opposite the Hibiscus Hut including Loretta Reynolds, Tereapii Rongo, Dernice Rongo, Ian George, Tim Manavaroa Buchanan, Michael Tavioni and Joan Rolls-Gragg.

Included in the gallery and also located around the Lobby area of The Rarotongan are the unique works by leading local artist, Mahiriki Tangaroa, who is represented in private and public collections around the world. Mahiriki majored in photography at the Canterbury University School of Fine Arts documenting the vanishing Cook Islands cultural heritage in her photographic assignments. In 1999 she began to paint and is now one of a small group of contemporary women artists in the Cook Islands.

Each of her pieces contains a distinctly cultural theme, whether it is in the style, subject, or commentary. These works showcase the abundant artistic and creative talent alive and well in the Cooks.

PH 21 939. Beachcomber is a founding member of the Cook Islands Pearl Guild.

Overall the **quality, selection and cost of jewellery on Rarotonga is excellent**, especially of gold jewellery. All stores that are members of the Cook Islands Pearl Guild will supply a **certificate of authenticity** with your newly-prized black pearl. Colour, lustre, size and regularity of shape determine the value of a Cook Islands black pearl; the bigger, rounder, more lustrous and with a variety of 'lights', the more expensive! Colours of genuine black pearls actually vary greatly, from pale golden pearls through to dark gold, pink-greys, peacock hues, right through to very deep, dark, mysterious orbs! Many of the pearl shops have a very informative brochure showing in detail the way a pearl is valued and the varieties available. Always remember though, that **beauty is in the eye of the beholder**, and if you like it, and it suits you, then yours is the last word!

This service is subject to availability and requires advance booking, however you are welcome to enquire at Front desk upon arrival should a last-minute opening have arisen. Alternatively, if your flight arrives during the wee hours, you'd probably be best to reserve your room from the previous day (called Pre-registration) to ensure it is ready and comfortable for your arrival, ensuring you get straight into the groove of rest and relaxation from day one of your vacation. Please bear in mind that you may be travelling across the international dateline and if so this needs to be taken into account when making your reservation.

#### **2.22. CHURCH SERVICES**

Cook Islands missionaries today work all around the world, and the role that early Cook Islands missionaries played in taking Christianity to other Pacific Islands established links with congregations in those countries which continue to this day. A visit to the historic Takamoā Theological College in Avarua gives one a glimpse into the life of those early missionaries. The College is near to a number of other notable architectural sights in the area, including a beautiful palace and sprawling grounds, a church and early graveyard, and the old London Missionary Society Sunday School built in the Spanish Mission style which today houses the Beachcomber art & jewellery gallery. The Takamoā Theological College today continues its tradition of training young Cook Islanders for pastoral duties with the Cook Islands Christian Church (CICC).

**Each Sunday Rarotonga's beautiful white coral and limestone churches fill with the soaring songs of worship of their congregations.** Visitors are most welcome to attend Sunday services, but please observe appropriate **modest attire** of shirts and long trousers for men, and longer-length skirts or dresses for women, preferably with short or long sleeves. A bus from The Rarotongan Beach Resort & Spa leaves at 9.30am Sunday for **the Cook Islands Christian Church and St Mary's Catholic Church**, both in Arorangi. The bus fare is NZ \$7 return, or NZ \$4 one-way. A church donation will be much appreciated. At the conclusion of service you may well find yourself invited by the Pastor to enjoy island fruits and light refreshments in the nearby meeting hall with the congregation. For further information please contact the Activities Hut, dial 8061, or the Front Desk, dial "8050".

**Travellers Tip!** Sometimes there are recordings of the church singing available for sale at the door following the service. If you'd like to buy one as a memento they cost about NZ \$20.

## **2.23. CIGARETTES**

Cigarettes can be purchased at the Raro Style Gift Shop at The Rarotongan. All Resort guestrooms, restaurants, and any semi-enclosed areas such as the Gazebos and Treetops Veranda are NON-SMOKING. If you wish to smoke, please **step outside these areas to do so**. Please dispose of your cigarette butts thoughtfully in the many coconut carved wooden ashtrays (not in the gardens, walkways, decks or on the beach please!).

**Comment [M1]:** ...do so away from dining areas i.e. sundeck and blue marquee (not the Blue Lagoon).

## **2.24. CLOTHES DRYING**

There are clothes dryers in the Guest Laundries located near the 700C accommodation village. Please DO NOT place any clothing over the light shades in your guestroom for drying. This damages the shades and is also a fire hazard. Please do not hang clothes outside of the rooms.

Dryers are token-operated and can be purchased from Front Desk for NZ\$7 each. A standard drying/washing cycle takes approximately 45 minutes. As a courtesy to other guests please retrieve your laundry shortly after completion of the washing or drying cycle.

Please contact Front Desk, dial "8050" should you require further assistance.

## 2.25. COCKTAILS & DREAMS OF THE SOUTH SEAS

All feedback is read to the management team daily and we use this information to improve and to note on our staff employment files.

### **2.30. COOK ISLANDS BEER**

"To be a developed country you need your own airline, a national sports team and a local beer. At the very least you need your own beer." *Frank Oz*

Brewing is a long established tradition in the Cook Islands, and a bush-beer drinking "school" such as those that the outer island of Atiu is especially famous for is called a 'tumunu'.

#### **Matutu Beer**

Here on Rarotonga, Matutu is a new boutique brewing company located in Tikioki, and crafts a number of enjoyable beers including 'Mai', a fresh-tasting, crowd-pleasing lager, 'Kiva', an adventurous pale ale as well as Matutu draught beer. Matutu beers are handcrafted in small batches by passionate brewers to enhance your Cook Islands experience, and we are proud to make these available for your enjoyment at our Captain Andy's Beach Bar & Grill right here at The Rarotongan. Such a shame Matutu beers weren't around in Captain Andy's day; one can well imagine a cool brew would have brought welcome relief to an ole sea dog with a mean thirst on a hot 'gone troppo' kinda day.

#### **Rekareka Brewery (Cooks Lager)**

Making beer for the first time, having a real love for 'its' making' and while contributing to the local economy is what Managing Director, Teariki Pennycook and Co-Directors, Stuart Davies and Edward (Tuki) Nee Nee from Rekareka Breweries are doing.

Located on St. Joseph Road in the heart of our township, Avarua, the Rekareka Brewery offers customers a NEW selection of locally produced beer. They have 3 options available for the "beer connoisseur":

- Cooks Lager
- Cooks Blonde
- Cooks Darkie

After 6pm a full night's accommodation charge is incurred. Please contact the Front Desk (dial "8050) for further information.

### **2.34. DÉCOR & AESTHETIC**

As a unique, character resort, the Sanctuary Rarotonga on the beach is proud to showcase the skills and talents of local Cook Islands artists and craftspeople so that guests may feel immersed in a seamless blend of traditional and contemporary expressions of a true, yet original, South Pacific aesthetic.

One major project was the design and production of the stunning brightly coloured panels and **tivaevae** - traditional Cook Islands quilts - that you will find hanging in Te Vaka during our Island Night. The works were co-designed by fabric artist Andrea Eimke and the Resort's Liz Raizis and Tata Crocombe, and produced by Andrea with the assistance of her seamstresses at her outer island studio, the Atiu Fibre Arts Studio (phone 33031), over several months.

**Flowers** are a central part of Cook Islands life and are used daily for personal adornment and to grace homes and buildings, especially during Tiare Week each November.

The Tiare Maori or single-petalled gardenia (*Gardenia taitensis*), the white and pink tipani or frangipani (*Plumeria obtusa* and *Plumeria rubra* cultivar), the kaute or red hibiscus (*Hibiscus rosa-sinesis* cultivar), the bright orange and purple tiare parataito or bird of paradise (*Strelitzia reginae*), the bold red and yellow tiare parataito or hanging heliconia (*Helicon rostrate*), the purple taria or bougainvillea (*Bougainvillea spectabilis*), the bright red anthurium (*Anthurium andraeanum*), the Riri Iotepa or Christmas Lily (*Lilium loniflorum* cultivar), the patai or flamboyant (*Delonix regia*), the oketi or pink moth orchid (*Phalaenopsis* cultivar), and the fragrant Pua (*Fagraea berteriana*) introduced (like the Tiare

Maori) by the early Polynesians into the Cook Islands from the Western Pacific many centuries ago.

Quilting was introduced to the women of the Cook Islands about 200 years ago by English missionaries. Since then it has evolved into a unique art form using patterns, motifs, emblems, icons and techniques specific to the Cook Islands. Tivaevae are generally produced by a group of women who cut and sew together in a circle, and the pieces become treasured heirlooms that are presented as gifts at times of celebration such as haircutting ceremonies, 21<sup>st</sup> birthdays and weddings, and are then carefully stored in glory boxes. The lady of the house will often use a tivaevae to drape across a bed or sofa intended for special guests, and tivaevae bedspreads and cushions are still seen in older homes. Sometimes treasured tivaevae are also buried with a close family member as a tribute to the deep love and high esteem in which they were held. There are several distinct styles of tivaevae embroidery and appliqué, and such treasures are rarely sold with few actually finding their way onto the market. **The Cook Islands Tivaevae Society** holds annual exhibitions of tivaevae on Rarotonga around October. The Society's aim is to revive this time-intensive and skilled art that is not practised as widely among younger, more time-pressured Cook Islands women as among the patient mamas of old.

All the Resort's guestrooms and suites feature the distinctive, **brilliantly coloured artwork of Andi Merkens**. When Andi and her family moved to Rarotonga from New Zealand, she was inspired away from her 25 years in graphic design into painting canvasses bursting with the vibrancy and lushness of the island. The pieces in the rooms include a work showing Mama Vaine Taripo of Titikaveka standing with a beautiful heirloom tivaevae (Cook Islands hand-embroidered quilt), and works specially-commissioned by The Rarotongan including "Te Vaka O Aroa" which incorporates two distinctive icons of the island – the vaka (or outrigger canoe) and a bright pareu (island-print sarong); Aroa of course being the name of this area, including Aroa Beach and Aroa Lagoon (the Lagoon of Love). A second commissioned work is called "Contented Cat" and features a tiger-coloured cat resting on a bright, tivaevae-draped sofa bordered by a vase of striking yellow lobster-claw heliconias. Prints of both "Te Vaka" and "Contented Cat" are available through the Pacific Art gallery in Muri for \$100 each, PH Ella on 24 200 or 51 419.

Elsewhere around the Sanctuary Rarotonga and our sister resort The Rarotongan features another of the Cook Islands' renowned art forms, **carving**. Carved staff gods, ceremonial spears, clubs and outriggers feature in the Resort porte cochere, TE VAKA Restaurant, Captain Andy's Beach Bar & Grill, Reef Fish Café, Treetops Veranda Restaurant and in the Games Lounge. The pieces come from our own collections added to by more-recent commissions from **Island Craft** whose well-stocked shop showcasing the work of local carvers and craftspeople is located in midtown Avarua (PH 22 009), or purchased from the superb **Beachcomber** gallery on the outskirts of Avarua (PH 21939). Our own gallery of original paintings is located opposite the Hibiscus Hut at The Rarotongan and features works from some of the Cook Islands acclaimed artists.

Rarotonga's clear, warm waters with fantastic visibility and diversity of marine life make it excellent for diving and snorkelling. If you've never dived there are qualified instructors at several different dive operations around the island who can give expert tuition, and Rarotonga's lagoons are a great place to learn (sure beats your local city swimming pool!). Outside the reef there's a diverse range of diving including interesting drop-offs, a variety of hard corals, rays, sharks, turtles, whales, canyons, caves, tunnels and shipwrecks. The reef drop-off goes from about 20 to 30 metres down to 4000 metres. Most diving is done at 5 to 40m where visibility is 20 to 60m (100 feet), depending on weather and wind conditions. Usual water temperatures range between 25 to 28 degrees Celsius. Another welcome feature of diving off Rarotonga are the short trips in purpose-built boats, often no more than 10 minutes to superb dive sites, and as the island of Rarotonga is circular there are almost always safe spots for diving with good visibility.

### **2.55. FISH FEEDING**

At 1.30pm any day Monday to Friday, join our friendly Activities staff at The Rarotongan for fish feeding. You will be amazed at the performance our lagoon fish will put on for you! You can even hand-feed the fish down at the water's edge – an unforgettable experience! Call The Rarotongan Activities Hut on 8061 for further details.

We have researched and taken advice from various local and overseas experts. The consensus was;

- Bread was not toxic to the fish; and
- Only certain species were interested in this food source which tend to be the schooling species; and

- The increase in the population of these species has provided an increased food source for larger species higher up the food chain and therefore there has been a noticeable increase in the giant trevally population for example; and
- In terms of being disruptive to the natural population order, that the Rarotonga lagoon is severely over-fished and excess populations within the marine reserve tend to move to other parts of the lagoon and re-populate those areas where they have a positive impact on the environment as well as provide a fresh food source for the local people; and
- The increase in available fish in the areas outside of the marine reserve has created goodwill amongst the small but vocal community group that had originally campaigned to be allowed to fish in the marine reserve. Without broad based community support, the marine reserve would have been re-opened to fishing some time ago; and
- The fish feeding provides an opportunity for people, particularly children to be personally engaged with the natural wild life in the marine reserve which will hopefully assist in generating more consciousness about the importance of human stewardship of the natural world; and
- The Rarotongan played the leadership role in generating and maintaining community support for the marine reserve and visitors and locals alike enjoy personal contact with the fish.

## **2.56. FISHING**

Fishing is not allowed, nor the removal of any shellfish, shells, sea stars (starfish) or any other marine life within the Aroa Lagoon Marine Reserve directly in front of the Sanctuary Rarotonga on the beach. However Marlin, Wahoo, Mahimahi (Dolphin Fish), Barracuda, Sailfish, Shark and Tuna such as Yellowfin, Albacore, Dogtooth, Skipjack and Big Eye are just a few of the exciting game fish that you have the opportunity to catch while deep sea fishing outside the reef in the Cook Islands.

Due to the close proximity of the reef, there are no long journeys out to deep water, and lines are set once out of the harbour ensuring maximum fishing time. Most trips are half day on a boat share with 4 to 6 lines, and private charters can be arranged. Catches usually remain with the boat although some companies do share it out and provide enough for dinner if the catch is sufficient. Morning trips go out at about 8am and afternoon trips at about 1.30pm.

Seafari Charters provide a great game fishing experience for all skill levels. Take a trip out to the ocean, to deep sea fish and have a go at catching an amazing array of fish from Marlin to Wahoo. They even provide you with a fillet from the days catch for your dinner. Why not ring our "the best of the island" tour desk now on 8070 and spend an exciting day with your line in water.

Rarotonga has a Game Fishing Club located in KiiKii, PH 21 419, where visitors are made very welcome. The Club is affiliated to the International Game Fishing Association, and for a small fee you can join as a social member. This is the place to relax and share in a few stories about "the one that got away"!

## **2.57. FOOD PRICES**

The Cook Islands produces a lot of its own fresh fruits, vegetables, pork and fish, however much of the food available in our small island nation has to be imported. Because of the relatively low volumes combined with high freight and refrigeration charges, the price of imported foods (such as fresh, airfreighted milk or imported fresh vegetables) can be a little higher in the Cook Islands than in larger countries. Despite this we endeavour to keep our prices competitive with similar standard resorts in similarly isolated locations in the South Pacific.

## **2.58. GAZEBOS**

Two popular locations for wedding couples to say "I do" are The Rarotongan Beach Resort & Spa's Polynesian-style sand-floor **Gazebos** on **Aroa Beach** and within our lush **Tropical Gardens**. Within their cool, palm-thatched shade, the Gazebos provide the perfect setting for couples seeking privacy and intimacy to exchange or renew vows, and are also ideal for a romantic candlelit dinner. A beautiful white sandy aisle bordered by young palm trees and tropical gardens traces a path to each of the Gazebos and provides a picture-perfect backdrop. The Aroa Beach and Tropical Garden Gazebos have a relaxed yet stylish Pacific ambience, and subtle lighting helps couples look their very best on their big day.

## **2.73. INSECTS**

Your beachfront suite is fitted with an insect screen for protection against life's little nuisances. Your room and surrounding outside area are also regularly sprayed for unwelcome pests. The Resort is however sensitive to concerns about the effects of sprays on human health, so there is therefore a limit to the amount of spraying that can be safely carried out. Please avoid storing food out in the open by using your mini bar fridge for food storage at all times, bearing in mind not to overstock and thus over-tax the fridge. Any sweet foods left outside of the fridge or dropped into bedding such as pieces of fruit, dried fruits, biscuits and so on would likely attract tiny sugar ants in no time. Should you have any unwelcome visitors please feel free to use the insecticide spray provided in your guest room. For any further assistance please contact Housekeeping, dial 8023 9am to 5pm, or after hours try the Front Desk, dial "8050".

**Travellers Tip!** Please remember that in the tropics things grow to lush proportions, and while some pests may look bigger than at home, they are really more of a nuisance than anything else. Many insects are attracted to light, so it will help to turn off your lights when leaving your room at night. And as mentioned above, it is very important not to leave opened food sitting around anywhere inside your room – please store this in your mini fridge. Talking of visitors, sometimes a moko (a gecko) may find her way into your room in the early evening – she's after insects or little titbits of soft, sweet fruits like banana or pawpaw. Other than sometimes making a clicking sound ('her bark') and occasionally leaving her 'calling card' she is **completely harmless** to humans (insects though are in real danger!) She will mostly scurry about on the ceiling or upper walls near the light, and will go into hiding during the broad light of day (probably outside among the leafy bushes).

Cook Islands dancers and drummers are widely considered to be the best in the South Pacific, and these performances are an authentic expression of traditional Cook Islands culture. **Guests often tell us that 'Legends of Polynesia' Island Night was one of the highlights of their stay, so it's definitely a night not to be missed**, and even if you think you've seen island dancing elsewhere, you've never seen anything like this – right from the heart! The renowned Orama (The Vision) Troupe feature on Wednesday night **This is the only Island Night on Rarotonga featuring food cooked in the traditional way in an authentic underground oven** (earth oven), imparting a unique, smokey taste and succulent tenderness. Reservations are essential, dial 8020.

## 2.79. ISLAND TIME

The Cook Islands are renowned for our wonderfully friendly people and the relaxed pace of life. This is often known colloquially as "Island Time" and **tuning into island time is certainly the best way to completely relax and enjoy your holiday on Rarotonga**. To avoid any frustration please take into account that any timings you are given in the islands can sometimes be more of an approximation than a deadline. Remembering this will save you any

unnecessary stress. Slow service however is not acceptable within the Resort; please contact the Duty Manager on "8050" if you have any concerns.

*Travellers Tip!* Take a walk down the beach. Turn around and walk back at half the pace. Now you're starting to get into the groove of Island Time! You know what they say, **"when in Rarotonga, do as the Rarotongans do!"**

## **2.80. KAYAKING**

Kayaking is a safe and enjoyable pastime in Aroa Lagoon, and the Sanctuary Rarotonga offers guests a fleet of complimentary one-and two-seater kayaks, plus the Daily Activities Programme at The Rarotongan regularly features guided Kayak Tours with members of our Activities Team who enjoy sharing their extensive knowledge and old stories of this area.

Aroa Lagoon is encircled by a living coral reef which separates the lagoon from the open Pacific Ocean, and is safe for kayaking, swimming and snorkelling at all tides. However, in Vaimaanga about 1 kilometre or so east of Aroa Lagoon, in front of the proposed Hilton Rarotonga, are the Rutaki and Papua passages out through the reef into the open ocean. These passages are dangerous for swimming, snorkelling, fishing, kayaking and surfing, and a number of local fishermen and tourist snorkeller's have drowned there over the years. **Do not at any time paddle out through (or over) the reef into the open ocean.**

*Travellers Tip!* One day, not so long ago, a member of our Activities Team looked up and thought he saw a couple of kayaks disappearing over the horizon. He paddled out as quickly as he could to offer assistance. By the time he reached them, they were several hundred meters out to sea. What were they doing? They were each lying on their kayaks, eyes closed, sunbathing, and gently drifting out into the vast Pacific Ocean. Luckily for them, our Activities staffer was able to escort them back over the reef. There is no helicopter rescue service in the Cook Islands. What they were doing that day was sorely tempting fate!

#### **2.89. MARINE SANCTUARY – RA'UI**

1 March 2000 was an historic day for the Sanctuary Rarotonga on the beach and our sister resort The Rarotongan Beach Resort & Spa with the placing of a ra'ui upon Aroa Lagoon by the elders of the local community, with whom we had worked closely. A ra'ui is a traditional taboo, in this case a traditional marine sanctuary, which bans fishing or the taking or disturbing of any shellfish, reef life, shells or coral from the lagoon and for 100m beyond the reef. On the 1<sup>st</sup> of March 2000 local Cook Islands Maori elders gathered for a formal traditional ceremony on Aroa Beach in front of the Resort to mark the ra'ui. Just as the ra'ui was being declared following speeches, prayers, and the laying of rauti upon the waters, two kakaia (pure-white love terns) flew overhead, and this was seen by those gathered as an extra special blessing and endorsement from above of this important event. The ra'ui provides valuable protection for the marine life in Aroa Lagoon, which is especially beneficial because Aroa – being a dynamic, sparkling clean lagoon - is an important breeding area for fish.

Consequently, it is of utmost importance that this marine sanctuary is protected by all visitors and locals alike. No fishing is allowed, nor the removal of any shellfish, shells, sea stars (starfish) or any other marine life.

Not only has this protection of the natural habitat been a big environmental boost for the lagoon life in Aroa, and hopefully a source of much enjoyment for generations to come but it has also meant that all of The Rarotongan's guests who love to snorkel have been able to witness an ever growing kaleidoscope of teeming, friendly tropical fish! For more information on Aroa Lagoon's marine life and to see a reef fish spotting chart, please contact the Activities Hut at The Rarotongan on 8061.

***Travellers Tip!*** Buy an instant underwater camera right here, from our in-house gift shops and capture your snorkelling adventure for posterity. Then sit back at home with a hot toddy and a winter fire blazing and pore over the amazing things you saw just a few metres from your Resort room! Hard to believe, but true

## 2.90. MARKET

**Saturday** is market day at the **Punanga Nui Market** (beside Rarotonga Wharf) which is open from 6am to about 11.30am or so (but usually starts to wind down around 11am - we recommend you get there early!). The bus drops you right there and the first bus leaves at 7.30am from just out front. The market offers a wide range of fresh local produce, cooked food and treats, drinking coconuts, arts, jewellery, carvings, handicrafts, T-shirts and pareus, and traditional dancers and bands often perform live.

## 2.94. MOSQUITOES/MALARIA/DENGUE FEVER

There is **no malaria** anywhere in the Cook Islands.

**Dengue fever** is a flu-like illness spread by the Aedes mosquito, which tends to bite around daybreak and dusk. **Dengue is endemic (ever-present) in Fiji, Tahiti and on Australia's East Coast (Queensland). Most of the time the Cook Islands is completely free of this disease** as the virus is not permanently present here, but from time to time it has been brought in by people travelling here from other countries. On those occasions our Ministry of Health has instituted island-wide eradication campaigns and has always advised the public of any reported cases. There are four different strains of the virus. Young children under the age of sixteen and those with compromised immune systems tend to be most at risk. Note that even where there are outbreaks of dengue, by far the great majority of people affected are local residents, and rarely do tourists contract this flu-like illness. Also, not all mosquitoes on the island are carrying or are able to carry the virus, and mosquitoes generally have a very limited flying range.

For your comfort and safety your guestroom at the Resort has an insect screen to keep out mosquitoes which, due to the Resort's close proximity to the coast, are not common day or night. The resort also continuously makes special efforts to keep the entire resort grounds free from potential mosquito breeding areas thus greatly reducing the incidence of mosquitos.

However, mosquitoes can be a nuisance further inland, particularly during the warmer months of the year, and it is recommended you take precautions against being bitten if you plan to trek or take a 4WD Mountain Safari into the interior. We suggest that you wear a strong insect repellent, take some vitamin B1 tablets to change the texture and taste of the skin making it unpleasant for mosquitoes, and/or wear clothing that covers areas of skin that are susceptible to being bitten, such as the arms, back and ankles.

House-proud islanders all around Rarotonga are regularly inspected by public health inspectors to ensure they are taking all possible measures to minimize mosquito-breeding sites.

Please assist us to keep the Cook Islands free of dengue by following the simple guidelines outlined in this advisory statement below from the Ministry of Health:

*Dengue can produce symptoms similar to those of other diseases such as influenza. It is caused by a virus carried by a particular (day biting) mosquito, from a sick person to a healthy one. It can take 5 to 15 days from contact to when the first symptoms may begin to appear.*

*The symptoms include:*

- *Sudden high fever*
- *Pains in the muscles or joints*
- *Headache and backache*
- *Pain on moving the eyes*
- *Skin rash, with or without itching*
- *Loss of appetite and weakness*

*If you experience any of the above symptoms or signs within the next two to three weeks you are advised to seek medical assistance – see a doctor. At the same time please inform the doctor (or nurse) about countries you have visited recently, and contact the Public Health Department of the Cook Islands Ministry of Health.*

*For further information please contact the Director of Public Health or the Chief Health Inspector on telephone number 29 110.*

**Travellers Tip!** The experienced guides at Takitumu Conservation Area have a great recipe for homemade insect repellent: mix half olive oil with half Dettol (an antiseptic) and apply liberally! They insist it keeps the mossies at bay when they're working in the bush or keeping still for hours while bird watching! If you do get bitten, try the locals' favourite mossie balm: Vicks Vapour-rub, available at The Raro Style Gift Shop!

### **2.107. REEF WALKING**

To preserve the living reef, walking on the reef is discouraged. In addition, the reef is made up of coral that can be very sharp and coral cuts are notorious for getting infected. It is possible to snorkel in the shallows between the coral heads on the reef. Among the things you may see are the yellowish or greenish Slate-Spined Sea Urchins, so-called because today's island grandmothers and grandfathers used to write their school lessons on slates using the spines of these sea urchins as 'chalk'! Also Octopus often burrow into their lairs along the reef. Please remember at all times never to touch living coral, and to respect the Aroa Lagoon Marine Reserve by not touching, disturbing or catching any living or dead marine life, corals, shells, reef fish, etc. The Ra'ui Golden Rule is 'Look but Don't Touch'. Please call the Activities Hut at The Rarotongan on 8061 for further information.

***Travellers Tip!*** If you are unfamiliar with our roads, or are unused to driving motorcycles, we strongly recommend you travel in the greater safety of a car, convertible or sporty 4WD instead. Our island roads present unpredictable hazards without discrimination to locals and visitors alike – hazards such as chickens, dogs, pigs, cows, bulls, goats, horses, sharp corners, gravel, potholes, narrow roads with no footpaths, pedestrians, joggers, wandering toddlers, slow moving tractors or earth-moving equipment, and distracted motorists. Inexperienced motorcyclists are at special risk of grazes and scrapes from motorcycle mishaps – often called the "Honda Rash" by locals - and someone who is seen to have a "Rarotonga tattoo" on their calf, has in fact had a hot and painful encounter with a motorcycle exhaust pipe. However if you feel that the

freedom and romance of a ride around the island on a motorcycle is for you, we strongly advise that you also hire a helmet. For further information on vehicle hire please dial our "Best of the Islands" tour desk on 8070 or the Front Desk, dial "8050".

Need sun screen, lotions, sun burn cream,

soft drinks, snacks and more? The Rarotongan Beach Resort & Spa has two handy stores (Raro Style and Treasure Chest Gift Shops) with a wide range of goods including those small but important necessities of life, plus local Cook Islands souvenirs such as a great collection of t-shirts, sundresses, many postcards, locally produced soaps and lotions, hand-made crafts, wood carvings, and more. Looking for a uniquely Rarotongan gift? Consider purchasing a print of one of the artworks found around The Rarotongan. These shops are great for a quick shopping fix, a handy bite to eat or just to have a wander and explore local products.

There are two main supermarkets and several mini-marts on Rarotonga. The majority of food is imported from New Zealand (by ship or airfreight) and therefore is more slightly expensive than would be typical in New Zealand. The range is not as large as in New Zealand or Australia but has all the basic varieties. There is however a wide variety of local fresh fruit, vegetables, fish and meat. For fresh local produce visit the busy Punanga Nui market on a Saturday morning. Locally grown produce sold direct from the grower is often cheaper than what you would find in the supermarkets.

The main shops in town are generally open from 8am till 4pm, Monday to Friday and 8am till 12 noon on Saturdays. Some supermarkets are open 8am till 6pm Monday to Friday and from 8am to 4pm on Saturday. The smaller village convenience stores tend to be open longer hours including Sundays before and after church (i.e. the village shops are generally closed between 10am – 12 noon on Sundays) but have a more limited range and generally higher prices. There are two petrol stations / grocery stores that are open 24 hours a day;

- Oasis Energy Centre, Nikao
- Super Brown, Tupapa

Almost all facilities are closed on Sundays for religious observance, or operate on restricted hours; however the Treasure Chest and Raro Style gift shops at The Rarotongan are open throughout the weekend.

## **2.120. SMOKING**

All Resort Beachfront Suites, restaurants, and any semi-enclosed areas such as the Gazebos and Treetops Veranda are NON-SMOKING. If you wish to smoke, please step outside these areas to do so. Please dispose of your cigarette butts thoughtfully in the many coconut carved wooden ashtrays (not in the gardens, walkways, decks or on the beach please!). Cigarettes can be purchased on-site at the Raro Style Gift Shop at The Rarotongan.

**Comment [M4]:** ...do so away from dining areas i.e. sundeck and blue marquee (not the Blue Lagoon).

## **2.121. SNORKELLING**

A few steps from your Beachfront Suite at The Sanctuary Rarotonga you can **snorkel straight off the white sands of Aroa Beach** in the **underwater wonderland of the Aroa Lagoon Marine Reserve**, protected by the encircling, natural coral reef. Swim with rainbow-coloured angel, parrot, butterfly, squirrel, goat, rabbit, unicorn, box and Picasso fish and a variety of beautiful wrasses such as sunset and bird, all in chest-deep, clear warm waters.

The snorkelling is so good here many of our guests have compared it to that of the Maldives or Australia's Great Barrier Reef (check out the Resort Guest Books for some of their comments). If you've never done it before, you'll be amazed at how **incredibly easy** and rewarding it is, especially so because Aroa Lagoon is both an important fish breeding area and a **traditional marine reserve** (a ra'ui). And you can **swim or snorkel at any tide** in Aroa Lagoon (not so in most parts of the island). Our Activities Team will be delighted to provide you with snorkelling masks and flippers or reef shoes along with invaluable local knowledge to ensure you get the most out of your snorkelling adventure. Reef shoes are highly recommended and are available for 3 hours free hire from the Activities Hut to all in-house guests. **Snorkelling safaris, snorkelling lessons and fish feeding activities** are part of The Rarotongan's Daily Activities Programme. Dial 8061 for any further enquires.

**Night Snorkelling**...explore the marine life after sundown when the "night shift" of the marine world comes out. It's a totally "*different world*" as they say. Different fish, different experience, not to be missed. If you loved snorkelling during the daylight continue that experience into the night, and open your eyes to the underwater nightlife. Snorkelling masks, reef shoes, wet suits, hot chocolate and cookies provided. NZ\$25 per adult and half price for children aged 9 - 11 years accompanied by one parent per child. Maximum and minimum numbers apply. Basic swimming and snorkelling skills necessary. A basic level of fitness required. For something quite special, talk to the Activities Team about our night snorkelling adventure, and see how different the reef life is after dark. Bookings essential at the Activities Hut (dial 8061) or our "Best of the Islands" tour desk (dial 8070).

### **Travellers Tips!**

**Bring or buy your own snorkelling gear** and reef shoes as you then have the confidence of them fitting you perfectly. Do **go snorkelling soon after you arrive** – if you find yourself hooked (and many do) then you've still got plenty of time to do loads more. Invest in a **disposable underwater camera**, as that will add another dimension to your holiday snaps. It's also worthwhile buying a waterproof **Cook Islands Fish Identification Chart**. The Gift Shops and the Dive Shop in Avarua stock them and you can then attach one to your wrist (using the rubber band threaded through the hole in the corner of the chart) and wear it as you're snorkelling along, which means you then know what you're looking at! And reading up about the life and types of fish and other marine life can make snorkelling even more fascinating – things like the different colourations of juvenile and adult fish of certain species, the fact that wrasses have independently moving eyes (a little like chameleons!), the fact that parrot fishes make themselves a cocoon to sleep in at night, the way that one eye of a Peacock flounder migrates to join the other one while it's still a juvenile so that it can turn into a flatfish, the special coating which clown fish have to protect them from toxic anemones . . . ah, the mysteries of the lagoon!

Talking of protection though, always remember to **wear your reef shoes or flippers** when heading out for a **swim, snorkel or kayak** to **protect your feet** from coral cuts and also from the possibility of accidentally stepping on a spiny sea urchin or stonefish. The stonefish has stinging spines along a ridge on its back but can be difficult to spot as it is well camouflaged for survival, either

sitting on corals trying to look like a stone, or sitting slightly submerged on the sandy bottom of the lagoon. Locals who have been stung by a stonefish report that it's very painful, so although stonefish are rare, it's always wise to never swim, snorkel or kayak without sturdy protective footwear. Avoid walking or trampling through the water, it's best to swim or float or to glide your feet along; should there be a stonefish around, it will then have warning to avoid you (which is what it'd rather do). Remember though, hundreds of visitors enjoy Rarotonga's lagoons every day without any incident, and stonefish stinging are not common – generally the victim is a local who is out fishing or catching octopus along the reef, and often not wearing any protective footwear.

Please note that the **Aroa Lagoon Marine Reserve** is a strict **NO TOUCH ZONE**, and fishing is strictly forbidden. The **Golden Rule of the Ra'ui is DO NOT TOUCH**, disturb, remove or kill any marine life, which includes reef fish, octopus, clams, corals, shells, shellfish, urchins etc. Please also take special care **not to knock or bump any living corals with your flippers**, which can be easy to do accidentally. Please **DO NOT STAND ON THE CORALS** when out in the lagoon. Corals are beautiful and delicate living animals which take decades to grow and one loose or heavy foot can destroy many years of growth.

If you're snorkelling or swimming in the lagoon you may feel a slight nip on your calf or thigh, that is likely to be caused by the **Picasso trigger fish** which is trying to keep you away from its territory. This usually occurs during breeding times (not seasonal) and will not cause any harm other than a tiny nip. The best thing to do is to swim away to another fascinating part of the lagoon!

These handy hints will ensure you get the most out of your exciting snorkelling adventure, and that the marine environment is also there for everyone to enjoy in the future. **Happy snorkelling!**

At 1.30pm any day Monday to Friday, join our friendly Activities staff for fish feeding. You will be amazed at the performance our lagoon fish will put on for you! You can even hand-feed the fish down at the water's edge – an unforgettable experience! Call Activities on 8061 for further details.

We have researched and taken advice from various local and overseas experts. The consensus was;

- Bread was not toxic to the fish; and
- Only certain species were interested in this food source which tend to be the schooling species; and
- The increase in the population of these species has provided an increased food source for larger species higher up the food chain and therefore there has been a noticeable increase in the giant trevally population for example; and
- In terms of being disruptive to the natural population order, that the Rarotonga lagoon is severely over-fished and excess populations within the marine reserve tend to move to other parts of the lagoon and re-populate those areas where they have a positive impact on the environment as well as provide a fresh food source for the local people; and

- The increase in available fish in the areas outside of the marine reserve has created goodwill amongst the small but vocal community group that had originally campaigned to be allowed to fish in the marine reserve. Without broad based community support, the marine reserve would have been re-opened to fishing some time ago; and
- The fish feeding provides an opportunity for people, particularly children to be personally engaged with the natural wild life in the marine reserve which will hopefully assist in generating more consciousness about the importance of human stewardship of the natural world; and
- The Rarotongan played the leadership role in generating and maintaining community support for the marine reserve and visitors and locals alike enjoy personal contact with the fish.

#### **2.124. STAFF**

Our staff has a reputation of being some of the friendliest you will ever meet! All of our staff is carefully selected through rigorous screening. We pride ourselves on the development of our team, and all staff participates in ongoing staff development and training programs. We also operate a management development program where young hotel school graduates progress through every department in the Resort. The majority of our staff have completed formal studies in Hotel Management and if not are in the process of doing so!

#### **2.125. SWIMMING**

The Sanctuary Rarotonga is luckily located right on the sunshine southwest coast, this means there's sunshine all day on the freshwater pool, the beach, and the lagoon – right up until sunset that is (often a glorious, blazing island sunset).

Wherever you are at the Sanctuary you are mere steps away from the unspoiled waters of the Aroa Marine Reserve. This protected sanctuary is home to a healthy, diverse marine life, and is sheltered by the outlying reef. Swim, snorkel, sea kayak and explore the reserve at any time in complete safety, as fishing are not allowed in the Aroa Lagoon Marine Reserve, and this particular area of the lagoon is less affected by tides. The Aroa Lagoon Marine Reserve has been set aside for protection for future generations, and we ask that you experience it to its fullest, while respecting the beauty and uniqueness of one of nature's miracles.

#### ***Travellers Tips!***

Always remember to wear your reef shoes or flippers when heading out for a swim to protect your feet from coral cuts and also from the possibility of accidentally stepping on a spiny sea urchin or stonefish. The stonefish has stinging spines along a ridge on its back but can be difficult to spot as it is well camouflaged for survival, either sitting on corals trying to look like a stone, or sitting slightly submerged on the sandy bottom of the lagoon. #### **2.126. SUNDAY ROAST NIGHT @ THE RAROTONGAN**

Popular and delicious! Succulent roast beef, lamb, chicken and pork with a side of roast potatoes and vegetables, topped off with an attractive array of desserts. Accompanied by the beautiful melodies of local artist, Tok, on his solo guitar. Minimum numbers apply. For reservations, dial 8020.

#### **2.127. SUNSETS**

The Sanctuary Rarotonga is set directly on Rarotonga's best beach, Aroa Beach (Lovers Beach), located on the island's sunshine southwest coast where the sun sets and the moon rises. At dusk, directly in front of the Sanctuary Rarotonga, the sky is often ablaze with a breathtaking show of colour. Experiencing one of these spectacular tropical sunsets will be a memorable part of your South Seas holiday, especially if you're kicking back on the lagoon deck with a long cool sunset cocktail. Alternatively take an evening stroll hand-in-hand with your beloved and gaze out at the shimmering waters of Aroa Lagoon (the Lagoon of Love) as the twilight glow settles across the horizon. Sunset times vary throughout the year but look out between 6.00pm to 6.50pm from March to October, and from 7.00pm to 7.30pm during the longer summer months of November to February. Be sure to take your camera to capture some dazzling sunset images to show your friends and family back home! ***Actually, being in the Cook Islands any time between November to February is especially rewarding because it means you get to enjoy longer days, gorgeous balmy tropical weather, frangipanis in bloom and ripe mangoes as well – perfect!***

#### **2.128. SURFING**

There is surfing here on Rarotonga but most of it is boogie boarding as there are no shore breaks, the island being almost completely surrounded by coral reef. There are a couple of passages in the reef which surfers use; otherwise the surf breaks very close to the reef.

Most of the locals paddle out, and only one of the surfing spots is far enough to warrant taking a boat out. If you're unfamiliar with the conditions (which can be

treacherous even to experienced locals), we would advise that we get you in touch with one of the local surfers to show you the best spots.

### **2.129. TAKITUMU CONSERVATION AREA**

The Takitumu Conservation Area is on Rarotonga's south-eastern side and is managed by the traditional landowners of this district. A delightful amble into this area gets you in amongst lush tropical forest, including the Giant King Fern, giant taro, the Rarotonga orchid and rare ground orchid, wild guavas, wild hibiscus, and the prized sunset-coloured Pua Neinei (which grows only at the highest reaches of the Rarotonga interior and no where else in the world). You also have the chance to see such endemic native birds as the rare, chatty Rarotongan Flycatcher (or kakerori, which was successfully brought back from the brink of extinction), the Cook Islands Fruit Dove (kukupu), and the Rarotonga Starling (i'oi). At the top of your climb you are greeted by amazing panoramic views across the blue Pacific Ocean. The gentle walk requires only a moderate level of fitness. Do wear good walking shoes, and take sun protection, a drink and a mosquito repellent with you (the Takitumu guides swear by their homemade recipe of half Dettol antiseptic solution, half olive oil). Return transfers and Lunch are provided. Tours operate on Tuesday and Thursday and cost NZ\$45 per person, and NZ\$15 for children under 16 years. Other days by arrangement for groups of 6 people or more. Please contact Tour Desk on 8070.

### **2.130. TAX**

A Government Value Added Tax of 12.5% is **included in all prices at the Resort**. This tax is required by Cook Islands Law, and law also requires the tax to be included in all pricing (however beware that some suppliers of goods and services may not include VAT in their pricing, and add this on to your account).

### **2.131. TAXIS**

Taxis are available 24 hours. Our Front Desk staff will gladly assist you to book your taxi and can also advise you of likely charges and any waiting times. Please dial "8050". Local taxi services around the island include:

Areiti Taxis & Tours	PH 23 012 / 55 752 (cellular)
Kia Orana Taxis	PH 20 203
Jason's Taxi	PH 74 706
JP Taxis	PH 26 572/ 55 107 (cellular)

Muri Beach Taxis	PH 21 625
Pecel Taxis	PH 72 888
Raro Getaway Taxi Ltd	PH 25 599 / 56 521 (cellular)

**Travellers Tip!** Taxi companies have been known to be unreliable on occasion and it may be wise to give yourself plenty of time in case of delays. Ensure you ask the driver what the charge will be before you board to avoid any unpleasant surprises. If you're going out for dinner you may find the cab charge actually

costs you more than your meals, thus the bus provides a great alternative option.

### **2.136. TIME ZONES**

As the Cook Islands are located across the **dateline** from New Zealand and Australia, it's **a day behind**. New Zealand and Fiji are 22 hours ahead of the Cook Islands, Australia is 19 hours ahead, and the USA and Canada are 3 hours ahead. Please note that these times are approximate only and do not factor in summertime 'daylight saving'. The international time zone is GMT -10, so the Cook Islands are in the same time zone as Hawaii. For further information you can access your local time zone at [www.worldclock.com](http://www.worldclock.com). As the Cook Islands is among the last places on Earth to see the sun set on each day, we were among the last to farewell the old Millennium! It is important to ensure that you have the correct time and date of arrival and departure if you are crossing the

International Date Line as it is not uncommon for confused guests to miss flights they thought were going a day later.

### **2.137. TIPPING**

Tipping in the Cook Islands is not obligatory however if you have received excellent service a tip of 10% will be well received. It will be much appreciated and gratefully received. Tips can be paid via cash, credit card or added to your room charge account when presented with a bill. If on the other hand the service you have received has not met your expectations, please contact the Duty Manager, dial "8050" or alternatively ask to see the Resort Manager.

For assistance in setting your alarm clock, please dial "8050".

## **2.141. WALKING & HIKING**

As most of Rarotonga's population lives on the narrow coastal fringe, the lush mountainous interior is virtually uninhabited and can be reached only by hiking tracks and trails. While there are walks and trails that are safe and accessible for all levels of fitness, we would recommend you go on an organised walking tour to get the most out of the knowledge and experience of the local guides, and to save becoming lost in unfamiliar terrain (some trails shown on maps may have become overgrown, and it is not fun sleeping rough overnight with limited food and water even in Paradise!).

**Pa's Mountain Walk** offers a two and a half hour **Nature Walk** and a strenuous 3 hour **Cross Island Walk**. **If you are looking to find out all about Rarotonga's amazing flora and fauna the nature walk is a must. Alternatively if you are fit and keen for a challenging hike into the high mountains finishing with a splash in the Wigmores waterfall give the Cross Island walk a try!** Pa has 12 years' experience in guiding walks and has built up a **worldwide reputation** for the depth of his knowledge and his humour. You'll learn about local legends, fauna, flora and medicinal plants, and he is also happy to guide other walks by arrangement. Transport is provided along with a light lunch and fruit in season. It is important to wear good walking shoes take a drink of your choice and some water to ensure you have the best walk possible. Cross Island Walk operates Wednesday and Friday and the Medicine Walk operates on Tuesday and Thursday at a cost of NZ\$75pp for adults and NZ\$35pp per children 12yrs and children under 5 are free. **Pa's Mountain Walks** can be booked through our "Best of Islands" tour desk at 8070.

**Cross Island Trek update:** Please note for your own safety that the **Cook Islands Tourism Corporation recommends that visitors not attempt the Cross-Island Trek without an experienced local guide**. This is because the path can quickly become overgrown, and soil erosion can also make parts of it particularly hazardous, plus if you inadvertently divert to the wrong turn you can become disorientated in the thick tropical jungle. Recently the Cook Islands Police were called out to rescue lost hikers who had to spend the night out in the jungle. In any case, taking along an experienced guide enriches your walk with deep local insights, knowledge and colourful yarns.

**Travellers Tip!** Even if you're going on a guided tour, ensure you **take with you plenty of drinking water** (and even a small pick-me-up snack) as it can get very hot and you can quickly become dehydrated, especially if your body is not used to the tropical conditions. The heat can be especially taxing for those with heart problems, so try to pick a cooler, preferably overcast day if you're keen to hike up to the Papua Waterfall or up into the mountainous interior. Also, take your swimsuit and sun block! Most of all though, enjoy!

## 2.142. WATER

The Sanctuary Rarotonga has in place a water filtration and UV-sterilization system, which means your tap water, has been through a comprehensive purification process. If you do however have any concerns you may prefer to boil your drinking water, or to buy bottled water from the Bar or from your room Mini Bar. Please note that only bottled water is served in all our restaurants and bars.

Outside of the resort and around the island there is no local government water treatment system and therefore you can assume, unless specifically informed otherwise, that the tap water is untreated. While enjoying excursions away from the resort and around the island you may wish to purchase bottled drinking water.

## 2.143. WEATHER

Unlike some nations closer to the Equator that have marked extremes in wet and dry seasons, Rarotonga enjoys a **pleasant climate year-round** with relatively minor fluctuations in temperature and climatic conditions. June to September is our cooler months, whilst December through to March is our warmer season. As Rarotonga and Aitutaki are tropical islands in the heart of the South Pacific, passing warm tropical showers can be experienced at any time, without any specific pattern. The term 'rainy season' is however a complete myth when it comes to the Cook Islands, as there is no 'rainy season' here. The warmer months tend to be slightly wetter (statistically speaking anyway), but luckily if there is any rain it's – very conveniently – often at night! The drier months from May/June to August/September range in maximum temperature from almost 25 to 26½ degrees Celsius. The warmer, more humid season from December to March enjoys a maximum temperature range of between 27 to 29 degrees Celsius. So even if there's a tropical shower, it's usually still warm and often sunny as well! It pays to remember that some of the most gorgeous blue sky shots that you see in brochures were actually taken in January, one of the absolutely best months to visit, often picture-perfect!

**Travellers Tip!** Don't get discouraged if you wake up and it looks like an overcast day; very likely it will have completely cleared by mid-morning. It's also wise though to 'make hay while the sun shines' as there are never any guarantees when it comes to the weather. In other words, don't wait until the last day of your trip to go on a special expedition, because, Murphy's Law being what it is, it may well be raining on just that day! Tropical showers though are not uncommon, but are usually warm and short-lived. Also, many people seem to think it's best to avoid the months from **November through to April**, yet these are by no means uncomfortably hot (after all, there's the air conditioning in your Resort room to retreat to if you feel the need for a refresher!). By avoiding these months travellers miss out on some wonderful, seasonal aspects of life on Rarotonga, **such as fresh mangoes, pineapples, guavas, lychees and avocados (yum!), the vibrant spectacle of the flamboyant (flame) trees in full flower lining the Circle Island Road (also known as Rarotonga's Christmas Tree), and the haunting beauty and aroma of the yellow or pink tipani (frangipani). Definitely not to be missed!**

#### 2.144. WEDDINGS

##### **WEDDINGS MADE IN HEAVEN**

Rather than marry in church surrounded by pomp, obligation and long-lost relatives, more and more couples are choosing to run away to a white sand beach on a tropical island surrounded by little more than the sea, the sky and the sand.

##### **THE ESSENCE OF ROMANCE**

Rarotonga, the heart of the South Pacific and one of the most romantic places on Earth, is the pick of the bouquet for many couples from all four corners of the globe looking for a special place to exchange their vows. A magnificent island of high mountains clothed in lush green rainforest and encircled by white sandy beaches and a beautiful blue lagoon, Rarotonga is truly one of the last remaining paradises on Earth. There are a number of different spots on the island where a couple could choose to tie the knot, but it would be hard to go past the long white sandy beach on the shores of Aroa Lagoon (Lagoon of Love), on Rarotonga's sunshine southwest coast. Swaying palm trees, turquoise sea lapping the pale sandy shore, the setting sun turning the whole scene golden as another day at the edge of time draws to a close. This is the idyllic South Seas wedding location of your dreams. And it's not just the romance which draws couples, but also the practical advantages of having a very affordable no-fuss wedding combined all-in-one with a South Pacific honeymoon!

Some couples opt to marry barefoot with little more than pareus (sarongs), the scent of tropical flowers and the soft popping of champagne bubbles as company. Others go for designer gowns with the groom in a white dinner jacket, a relaxing pamper pack of massage and beauty treatments at the Resort's SpaPolynesia, professional hairstyling and make-up, and a full troupe of island drummers and dancers to celebrate.

##### **THE TREE OF LIFE**

All couples marrying at either Sanctuary Rarotonga, The Rarotongan Beach Resort & Spa or Aitutaki Lagoon Resort & Spa plant a baby coconut palm, or uto, to seal their vows. In the islands the coconut is known as the 'Tree of Life' for the many different ways it sustains life in the South Pacific, from roof thatching to costumes, canoes, baskets, food, drink and even baby food.

### **DIFFERENT BRIDES, DIFFERENT STYLES**

Our Personal Wedding Planner says one bride, a pilot, chose a flowing navy gown in which to say "I do", another chose lilac lace (and a two-tiered heart-shaped chocolate wedding cake!) and still another was so unused to wearing dresses that her workmates blitzed the Resort's fax with such helpful hints as "The long opening at the back is called a zipper and the two holes are for your arms to go through". "On the day though she looked absolutely lovely in a short, simple pale cream dress."

### **HANGING IN THERE**

Also increasingly popular are Renewal of Vows ceremonies where couples want to make their wedding anniversary especially meaningful by confirming their love and commitment to each other.

*"It's deeply touching to be at any wedding but these ceremonies can be especially moving because sometimes the couple have been through a lot together and they're saying, despite that, they still want to hang in there."*

Many such couples particularly appreciate the seclusion and privacy of the Resort's Tropical Garden Gazebo. Nestled within The Rarotongan's lush tropical gardens, and with a sand floor and a canopy of thatched coconut palm leaves, the Gazebo is an intimate and very romantic venue very popular with couples seeking a beautiful alternative to a sunset beach wedding or in or beside our Aroa Beach Gazebo.

### **SIGNED AND SEALED WITH A KISS**

The Rarotongan's Wedding Planner says Cook Islands' weddings are fully legally recognized worldwide. She says couples need only be in the Cook Islands three full working days prior to the ceremony to obtain their marriage license. All that's required are the couples' passports and birth certificates, and divorce and death of spouse papers if applicable.

### **WHY THE SANCTUARY IS PERFECT FOR YOUR WEDDING**

Imagine standing together on the white sand beach beside luminous Aroa Lagoon (the Lagoon of Love) at the Cook Islands' best beach resort, surrounded by the soft popping of champagne bubbles, the sweet aroma of frangipani and the warm wishes of those you love. This is a 'Lagoon of Love' Wedding. Here, with your toes in the sand and bathed in the golden glow of the setting tropical sun, your hearts will beat as one. Meant to be.
